1. The General Season for a county applies to all streams within that county, unless a specific season is given for a listed stream in that county under Exceptions to the General Season. Some streams flow through multiple counties. Check the listing for the county in which you propose to work to determine the open season for that stream.
2. The season for a listed Exception to the General Season applies to all its tributaries, unless a tributary of that stream is also listed with a separate season. Such tributaries are listed below the parent stream with an indent and a (-). Some streams flow through multiple counties. Check the listing for the county in which you propose to work to determine the open season for that stream.
3. Columbia and Snake River reservoirs are not considered lakes. Lake is defined in WAC 220-110-020(47) as any natural or impounded body of standing freshwater, except impoundments of the Columbia and Snake Rivers. Timing applies as noted, except where specific timing by county indicates otherwise.

1. The General Season for a county applies to all streams within that county, unless a specific season is given for a listed stream in that county under Exceptions to the General Season. Some streams flow through multiple counties. Check the listing for the county in which you propose to work to determine the open season for that stream.
2. The season for a listed Exception to the General Season applies to all its tributaries, unless a tributary of that stream is also listed with a separate season. Such tributaries are listed below the parent stream with an indent and a (-). Some streams flow through multiple counties. Check the listing for the county in which you propose to work to determine the open season for that stream.
3. Columbia and Snake River reservoirs are not considered lakes. Lake is defined in WAC 220-110-020(47) as any natural or impounded body of standing freshwater, except impoundments of the Columbia and Snake Rivers. Timing applies as noted, except where specific timing by county indicates otherwise.
